MEMORANDUM FOR: See Distribution

SUBJECT: Intelligence Community Relocatable Targets Working Group
(ICRTWG) Meeting [REDACTED]

STAT

1. For the preparation of the FY 1990 National Foreign Intelligence Program (NFIP), the DCI has identified a one percent DCI initiatives fund to allow him to add additional emphasis to selected, key topics and new initiatives for the 1990s. The goal is to develop a package of initiatives that responds to Presidential and DCI interests, has a Community focus, is programatically sound for FY 1990 through FY 1994, and is justifiable to the Congress. The objective of this package should be to reduce serious gaps related to selected intelligence problems of high-level interest. Specific critical topics that will be considered include those identified in the DCI's FY 1990-1994 Guidance, and strategic relocatable targets (RTs) is one of these topics. [REDACTED]

STAT

2. To bring you up to date on the status of this activity as it relates to the RT problem and discuss some of the options that the Community has at this point, an ICRTWG meeting is scheduled for 1000, 30 August, in [REDACTED]

25X1
STAT

[REDACTED] An agenda is included at Tab A. [REDACTED]

3. I have also included a copy of the issue paper on Relocatable Targets (Tab B) that was used at the DCI's meeting with the Program Mangers on 16 August. Most of you have probably seen this paper, and as you review it once
